

Garvit Chaudhary

Full Stack Developer

Bulandshahr, UP | [linkedin.com/in/gryt](https://www.linkedin.com/in/gryt) | +91 8448173525 | r.garvit7@gmail.com

SKILLS

Front End: React.js | Javascript | Redux | Redux Saga | HTML | CSS

Back End: Java | Spring Boot | REST API | Microservices | AWS

Database: MongoDB | MySQL

Libraries: Material UI | Tailwind CSS | Axios | Chakra UI | Bootstrap

Tools: Visual Studio Code | IntelliJ Idea | Git | React Dev Tools | Redux Toolkit | Postman | JIRA

WORK EXPERIENCE

Engineer **Nagarro**

Gurugram
07/2022 - Present

The **National Housing Loan (FAB - NHL)** program delivers a seamless experience for UAE locals to apply for home loans. Leveraging a mobile app and a centralized web portal, it caters to diverse user roles, supported by the versatile Camunda Workflow Engine for business agility.

- Built and maintained modern, user-friendly web applications using frontend web technologies.
- Utilized React.js to create interactive and dynamic user interfaces, supported by react hooks to enhance state management and provide seamless experience.
- Maintained and upgraded microservices, adhering to best practices for scalability and maintainability.
- Optimized customer onboarding by implementing an identity card verification system, eliminating manual input, significantly enhancing accuracy and operational efficiency in loan application processes.
- Automated application tracking in Camunda, developing a user-friendly dashboard for analytics, and enabling easy data download.
- Designed, implemented, and integrated an auto-assignment service utilizing round-robin algorithm, improving service request allocation efficiency by 60%.
- Collaborated with cross-functional teams to integrate fresh features into existing applications, enhancing user experience.
- Used JIRA for bug tracking at the project level and environmental issue tracking. Participated in Agile Environment, contributing to daily stand-ups, sprint planning, and code reviews.
- Spearheaded the frontend development, overseeing end-to-end development of features, from requirement discussions to production rollout.

Associate Software Engineer **Nagarro**

Gurugram
10/2021 - 07/2022

BFSI Temenos - Platform for business transformation that helps financial institutions to accelerate their digital transformation initiatives.

- Developed and implemented new software features, utilizing programming languages such as Java and React.js, resulting in improved functionality and user experience.
- Contributed to the maintenance and enhancement of existing software systems, performance optimizations, resulting in improved system stability and efficiency.
- Developed multiple POC's to demonstrate new features to clients and participated in client calls for presenting the ideas.
- Used Jira for bug/issues tracking and used source version control tool Bitbucket for codebase management.
- Collaborated with cross-functional teams to design and execute software testing strategies, ensuring high-quality and bug-free products.
- Assisted in troubleshooting technical issues and provided timely resolution, resulting in increased client satisfaction and retention.

PROJECTS

Portfolio Application < <https://www.grvt.me> >

- Created a personal portfolio using React, Material UI, Tailwind CSS, showcasing my skills, experience and projects and Self hosted the portfolio using an old laptop running Ubuntu Server and made it accessible over the internet using a domain.
- Implemented state management and hooks for a responsive and seamless user experience.
- Technologies Used – React JS, Material UI, Ubuntu Server, Nginx, HTML, Tailwind CSS, Typescript.

Result Management System < <https://github.com/grvt7/ResultSystem-Angular> >

- Allow a school to keep a record of all the results. Along with a login system using which Faculty can add, edit and remove the results and Students use the service to view their results.
- Students also have access to a portal where they can access their record and appeal if they find any mistakes and corrections are needed
- Technologies Used - Angular, Angular Routing, Spring Boot, REST API, MongoDB

EDUCATION

- | | |
|-------------------------------------------|---------------------|
| • Computer Science and Engineering | Sharda University |
| • Senior Secondary Education | Delhi Public School |
| • Higher Secondary Education | Delhi Public School |

ACHIEVEMENTS AND CERTIFICATES

Rank Holder in GitHub Incubated Ind Hackathon (2020) - Scored 2nd Rank
Full Stack Developer Course (Udemy)
React JS (LinkedIn)

INTERESTS

Video Games, Music, Anime, Problem Solving
